## WASHINGTON WIVES.

WOMEN WHO GRACE SOCIAL LIFE AT THE CAPITAL.

Life Partners of Non-Congressmen—Charming and Accomplished Ladies From All Over the Country—Interesting Personal Sketches—A Variety of Facts.

Copyright, 1894, by American Press Association.

A charming and accomplished young woman is Mrs. Baldwin, wife of Hon. Melvin R. Baldwin, the new member from the Sixth Minnesota district. She was Miss Jennie Kunkle, a cousin of the late Senator. She went, when a small child, to McGregor, Ia., where her girlhood days were passed, except those spent at St. Joseph's academy, St. Paul. She was married soon after leaving school and has lived since in Minnesota, with the exception of several winters spent in the south. She speaks French and German well, has decided dramatic talent, having appeared frequently to great advantage in amateur theatricals, and is a very clever and artistic needlewoman. Mrs. Baldwin is a native of Minnesota.

Another interesting Texas woman is the wife of Hon. George C. Pannell of Belmont. She was Miss Helen Embury, born in Kentucky, where her ancestors on both sides were early settlers. Her parents removed to Texas when she was 2 years old, and there she grew up, married and has lived most of the time since. She is a tall, slightly, rather delicate looking woman, with dark hair and eyes, and very quiet and retiring. She has four daughters and a son.

When a man comes from Salt Lake it is taken for granted that he is a Mormon, and the question is asked, "Where are the rest of his wives?" The new representative from Utah, Judge Joseph L. Little, who is not a Mormon, has only one wife, a black haired girl, and two boys, all under 14 years of age.

Washington.

Twine Ball Holder.

The net which incloses the twine ball is made of coarse crocheting silk of some brilliant tint and is crocheted in an open pattern of shell holes, so that the twine ball is visible through the net. The net is made of a single piece of twine, which is drawn into a ring at its top, and the end of the cord is left to hang through. By thus having the opening for the admission of the ball at the bottom, a new one may be inserted when the first one gives out.

The wife of Hon. Charles D. Harlan of New Philadelphia, Ohio, Miss Nancy D. Wilkins, a native of Connecticut, Pa. She has for some years been a successful physician, and is devoted to her husband and her family.

Mrs. James A. D. Harlan of New Philadelphia, Ohio, Miss Nancy D. Wilkins, a native of Connecticut, Pa. She has for some years been a successful physician, and is devoted to her husband and her family.

INSTRUCTIVE TOMATO TESTS.

Conducted in Garden and Field at a Tennessee Agricultural Experiment Station. From the station of the University of Tennessee at Knoxville has been issued a detailed report of some very interesting experiments with tomatoes, grown both in garden and field. There is much in this report that is of widespread interest. Following are some of the conclusions drawn from the report, the length of which prevents its being reproduced in full.

Cutting back the leading shoots at intervals during the growing season decreased the yield.

Training to one or two stems hastens maturity and secures fruit of superior size and quality.

It is doubtful whether supports can be profitably used, except in training to one or two stems. Stakes and wires will permit. They ripen earlier and produce better.

Inserting plants at medium depths gave better results than very deep or very shallow setting.

The application of manure liquor made no apparent difference in yield.

The practice of sowing seed in hills, without transplanting, should not be recommended. The best transplanting flats proved more satisfactory than two transplantings.

Seeds which produced slightly better weight than cuttings, but individual fruits on cuttings were very much the largest.

Cutting back to three inches of the ground at time of transplanting decreased the yield.

Bugging improved the color and quality of fruit and decreased the loss by rot and sun blistering. Value of system in practice depends upon the cultivator.

Varities that made the best showing the past season were Early Pannell, King of the Hill, Dwarf Champion, Loring, Livingston's Beauty, Loring, Early Acme, Livingston's Favorite, Volunteer and Yellow Finn.

The Best Wheat.

An enterprising Ohio farmer says that he finds that his best wheat, where the plants are crowded so as to produce the best quality of wheat, is the one that produces the largest and best quality of wheat.

During the epidemic of the gripe Chamberlain's Cough Remedy took the lead here and was much better liked than other cough medicines. If H. M. Chamberlain, Chautauque, Ill.

How Water Gets Into Tile.

Professor J. M. Bloss of the Ontario Agricultural College, Canada, has been studying the drainage of the soil, and has found that water gets into the soil through the joints of the tiles.

Beckon's Creamery varies in their ideas of how many grades of honey are required. Judging from expressions of opinion, the creamery has no difference in the subject, 7 out of 8 were in favor of three grades.

About a year ago I took a violent attack of a gripe. I coughed day and night for about six weeks, my wife then suggested that I try Chamberlain's Cough Remedy. At first I thought it was no different, but still kept taking it, and soon found that it was what I needed. I got no relief from one dose I took another, and it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I have been in so much of it that I have been able to give it to my family. I have received from it. Madison Mustard, Ottawa, Ohio.

## GRUELLEISM.

Extracts from an Old Breckenridge News.

A few days ago Mr. Austin Beavin kindly presented us with a copy of the BRECKENRIDGE NEWS, dated December 7, 1881.

At that time Wallace Gruelle was pushing his immortal pencil in this office, and a few extracts from this twelve-year-old issue will probably interest our readers at this time.

EDITORIAL.

Bluegrass office-seekers, like bluegrass hares are mighty hard to beat.

The best thing that can be said of the Governor's message is that it is the best.

When lovely women stoops to folly, it is always with the able assistance of some man.

What makes the man who can't get an office sorely sick at heart is "the political corruption of the day."

Polk Johnson walked the waters of the office he was after like a thing of life. A thing of beauty he has always been. [As Johnson has just now received a fair government appointment, it may be inferred that he is still successfully doing the walking act.—Ed.]

There are men so frail in their bearing and action in disposition that their wives utilize their manners for ice-cream favors.

We will esteem contemporary, the Danville Idol, such endeavoring to persuade Mr. Jeff Davis to pay our wages in Confederate money, long enough to tell us whether his Rev. Zimmerman receives his pay in "Julius pieces" for dragging the robes of high office of minister of Jesus Christ through the hell-brewed slops of a still-house?

Will the martial and heroic order of our esteemed contemporary, the Danville Idol, support the gallant and battle-scarred federal soldier, Frank Wolford, in the event of his receiving the Democratic nomination for appellate court clerk? The mighty shoulders of the national union dead bend from the ramparts of heaven to catch his response.

The other day a man-cried "stop thief!" on a crowded thoroughfare in Cincinnati. Five minutes the street was almost deserted. The crowd had dodged around corners and darted up alleys.

Under the head of "Farm and Garden" the Buffalo Courier records the betrayal of a Cornish girl by her lover. It may be, however, that the cultivating of promiscuous babies is a special branch of agriculture in the Courier's state.

An old Greek was found on an emigrant ship recently trying to beta pass to America.—Boston Globe.

He was an omegs-looking chap when they hauled him out of the hold.—Providence Post.

But speedily revived when a New York sealer-dealer nation of Kentucky fished to him.

"I'll feed to the locusts and wild honey," said God.

"I'll feed to the locusts and wild honey," said Satan: "Five dollars a day for looking your God and watching my stail."

Are the wages I usually pay?" And the preacher tossed his Bible aside.

And watches the Devil's still with pride.

LOCAL BRIEFS.

The rock-lying on the abutment of the bridge is progressing with great rapidity. (Thos. J. Lewis sold one hind of Breckenridge county, White River, in Louisville at \$18.75, and W.K. Whitson disposed two hinds, one at \$10 and \$10, last week.

James M. Lewis,  
Contractor & Builder.  
CLOVERPORT, KY.

Estimates furnished on application.

Robert E. Woods,  
ATTORNEY AT LAW,  
Room 47 Trust Building,  
LOUISVILLE, KY.

LEE BISHOP,  
CONSTABLE,  
HARDINSBURG DISTRICT.

All business entrusted to my hands given prompt and careful attention. Notes and accounts collected and prompt returns made. Send me your business.

BRECKENRIDGE NEWS.  
WEDNESDAY, JANUARY 3, 1894.

LOCAL BRIEVITIES.

J. G. Harris went to Louisville yesterday.

R. B. Pierce went to Louisville yesterday.

Charlie Tintus returned from Owensboro yesterday.

Burrel Bond, of Hardinsburg, was in the city Saturday.

S. A. Pate, of New Bethel, was visiting relatives in the city Sunday.

Miss Ethel Oels returned to her school at Georgetown yesterday.

Miss Priscilla Owen, of Louisville, is visiting her brother, Dr. J. T. Owen.

Dr. J. R. Cottrell will preach in the Elm-street Methodist church next Sunday night.

Mr. Lee Vandergrift and family have moved to Roberts' Bottom above Stephenson.

Rev. W. M. Burgess will tell his regular appointment here next Saturday and Sunday.

Miss M. E. McQuilly, post-mistress at Sample, was in the city Monday doing some shopping.

Mr. V. B. Burton, of Rock Lick, attended services at the Baptist church in this city last Sunday.

Vincent Hardin advertises a big sale of stock and farming implements at his farm near Hardin's Mill.

Mr. James Temple, of Bellevue, came in Saturday to see his sick brother, Mr. C. D. Temple, of the Cloverport hotel.

For special prices and fine effects call at the picture gallery any time from now till January 10th—C. E. Knight, Cloverport, Ky.

Turn over a new leaf. Don't borrow your neighbors' pay any longer but subscribe for one and let it come to you during '94.

We will continue to make photographs at reduced prices 'til January 10th, after that date the price will be raised—C. E. Knight, Cloverport, Ky.

Miss Margaret Bowmer gave her Sunday school class a regular old-fashioned candy pulling last Friday. The little folks had a delightful time.

Mr. Wesley Robertson, who had been visiting his daughter, near Patonsville, passed through the city Monday evening to his home near Union Star.

Ed Brasher celebrated his fifty-fifth birthday last Friday at Hawesville, by banqueting the teachers of the city schools. It was a nice social affair.

Sherman Bell, of Hardinsburg, was in the city Saturday mixing among his Republican friends and soliciting their support in his candidacy for County Clerk.

Misses Sallie Davis, of the Norton Infirmary, Louisville, who has been spending the holidays with her parents in this city, has returned to her duties in that institution.

Gordon McElavock and Ira DeHaven spent several days in Christmas week visiting in the Hardinsburg neighborhood. They report that they had a splendid time.

A pocket book containing money was found in W. H. Bowmer & Son's store last week. The owner can get it by calling and identifying same and paying for it's advertisement.

Frank Megley was arrested one day last week, charged with petit larceny. He was tried in the City Court and placed under a bond of \$50 to await the action of the grand jury.

Mr. Geo. Weatherholt and family and Mrs. Cowden, Mr. Kirt Weatherholt and wife went to Jeffersonville, Ind., last week on Capt. F. M. Ryan's log boat. They will be absent several days.

Ed Kiehl started back to his school at Terre Haute yesterday. He will remain until June and then he may go to Pennsylvania to accept a position, that has been offered him, as civil engineer.

Misses Emma and Nola Greenwalt, who have been visiting relatives in this city for the past week, returned home Monday, accompanied by their grandparents, Mr. and Mrs. George Taylor.

David S. Murray, of Salt Lake City, Utah, is spending a few days in this city with his father, Judge J. A. Murray, and passing the time pleasantly among the companions and scenes of his childhood days.

Mr. John Dandlen and wife, of Booneville, Indiana, accompanied by her brother, Mr. John Hartley, of Evansville, visited their aunt and uncle, Mr. and Mrs. Catlin during Christmas, returning home, Friday.

Quarterly meeting was held in the Elm-street Methodist church last Saturday and Sunday. Dr. S. X. Hall, presiding officer, preached an eloquent sermon on Sunday to a large and appreciative audience. It is occasionally that we have such able men as Dr. Hall to visit us.

SOUL SUFFERING.  
Indulgence has been taken by the  
BROOKS & HARRIS DISPENSARY.  
All persons who have been taken  
backwards and who need more on wraps.

David M. Duncan, a compositor in this office, will leave tonight for Louisville to visit his brother, Court, and hear Fatt.

Little Forest Yeager, the three year old son of Johnnie Yeager, who was reported last week as being dangerously ill, died on Wednesday night. The grief-stricken parents and other relatives have the sympathy of many friends.

Mr. Bobb, R. Pierce, miner and skipper of the celebrated Falcon coal, has opened an office in the Comm-re building, number 407, Louisville. Mr. Pierce will divide his time between that office and the home office in this city.

John T. Ditto says he has turned over a new leaf this New Year. He has firmly resolved to have nothing to do with the spirit of a whole year. It may be caused by many disastrous circumstances in that direction in the past year.

The steamer, Transit, Capt. F. M. Ryan, touched here last Thursday morning to take Mrs. Ryan, who had been spending Christmas with relatives on board. The Transit had been in Cairo for a couple of weeks, working on the wreck of the Coal City.

Miss Sadie Ashdown, daughter of Allen Ashdown, New Bethel, died of brain fever last Friday, the 29th, ult. She was the only child at home, and was sick only a very short time. The grief-stricken parents have the sympathy of a large circle of relatives and friends.

John T. Ditto, of Louisville, accompanied by his little niece Corrie Ditto, of Brandenburg, came down Monday to spend New Year's with his sister Mrs. J. D. Babbage. He returned to Brandenburg yesterday and will act as best man today at the Fyrmire-Woolf-Camp-Wimp-Woolf nuptials.

Mayor C. E. Lightfoot carried off the horse prizes at the Christmas tree last Thursday night. They consisted in a big doll and a rabbit foot. The doll was rather depleted, but it beats nothing in the way of a baby's toy.

As a hint to the wise is sufficient, the Honorable Mayor will no doubt use the rabbit foot to an advantage.

Young Charles Tintus left a large sample of the City of Louisville in his office last Saturday afternoon. Upon examination it seems to be the same kind of article that Frank recommended to us for the sake of the stomach, and consequently we feel sure that using it for that purpose, but only wish that we owned the whole vineyard.

The public road from this city to Owensboro is still in a dangerous condition. The back logs have been removed, but it is so narrow that there is not room enough for a team to pass without endangering the lives of the occupants.

We have called the attention of the court to this matter before. Something should be done before the county has a suit on its hands for damages.

A large crowd of people assembled in the Baptist church last Thursday night to witness the distribution of the prizes of the Christmas tree among the anxious Sunday School children. The tree was a very large one and was richly laden with gifts, appropriate and valuable gifts.

The pleasures of the evening were greatly enjoyed by all, as nothing makes a person so happy as to see others happy; and the merry laughter of the little ones and the glad voices of the young men and filled those of all present with the same joyous feeling. The pleasure of the evening was enhanced by soul-stirring music by the Sunday School choir.

## ENTRE NOUS.

A Handsome Entertainment at the Residence of Mr. and Mrs. A. B. Skillman.

Last Monday evening the Entre Nous club entertained the young gentlemen in grand style at the comfortable residence of Mr. and Mrs. A. B. Skillman.

The young ladies were all attired in evening dresses and the young men wore full dress suits.

The large double parlors were exquisitely decorated with hollies and mistletoe. There were several tete-a-tete corners, especially prepared for spooning. The hall was in red. Orange punch was daintily served by Miss Margaret Skillman and Marion Bowmer at the desire of any one. Just before the hour for refreshments, partners were selected by lot, after which the guests were requested to repair to the dining room. Here were found table laden with a bountiful supply of rich delicacies, of which all partook heartily.

Those present from a distance were Misses Annie Taylor, Henderson; Anna Griffith, Owensboro; Mabel White, Grand Rapids, Michigan; Mrs. John Burks, Henderson; Messrs. George Ditto, Louisville; David S. Murray, Salt Lake City, Utah.

## For County Attorney.

In this issue is announced the candidacy of N. Miller for the office of County Attorney, subject to the action of the Republican convention to be held in Hardinsburg on Monday 12, 1894.

Mr. Miller is a promising young lawyer of this city. He is a native of New Albany, Indiana, having located here about five years ago. He has no rapidly gained popularity in Republican circles, that, recognizing his qualifications and ability, the Republican County Committee, last spring selected him Chairman of that body. He has since resigned that position, because of not being so situated as to give it the most advantageous attention.

His practice as an attorney in the courts of the county has been crowned with success and he is rapidly climbing the ranks of the leaders in the law. He is a nice, moral, sociable, young man, well qualified to fill the position to which he aspires, and we take pleasure in recommending him to the serious consideration of our Republican friends. The only objection we have to him is that he is a Republican.

## SNAGGED!

THE CLOVERPORT CITY GOVERNMENT GOES UP AGAINST THE NEW CHARTER WITH GREAT FORCE.

One Police Judge in Office and Another With a Commission From Gov. Brown in His Pocket.

## WHO IS IN THE RIGHT?

Ex-Mayor Lightfoot Claims That His Term as Judge Has Not Yet Expired While Mayor or Barry Thinks Otherwise.

A POINT OF LAW THAT MAY HAVE TO BE DECIDED BY THE HIGHER COURTS OF JUSTICE.

## THINGS LOOK MUDDLED.

The City Council met Monday night in regular session. It being the last meeting of the old council and being generally known that the city would change hands on this night, the City Hall could hardly hold the crowd. The first business of importance was the letting of the contract for lighting the street lamps. There was a huge number of bids, and after an examination and fair consideration the contract was let to Frank Rates at \$14.50 a month, his being the lowest and best bid.

Claims were allowed to the amount of \$287.95.

After a little discussion of the tobacco taxes the old council adjourned.

The new Mayor, J. B. Barry, was then sworn into office. He immediately qualified the new council, consisting of the following members: C. B. Skillman, F. P. Payne, R. B. Pierce, A. L. Oels, Joe Lillard and S. P. Conrad. This new board immediately proceeded to business. F. N. D'Uy was elected City Clerk by acclamation. O. T. Skillman received the place of City Treasurer without opposition. There were four candidates for City Marshal—G. W. Jordan, John Hall, J. H. Willis and J. C. Porter.

The first ballot resulted, Jordan, 3; Porter, 2; Hall, 1; Willis, 0. Mr. Jordan was declared elected, but on motion the question was reconsidered, as the City Attorney decided that there was no election. A second ballot resulted, Jordan, 4; Porter, 3; Mr. Jordan was then declared duly elected.

The election of a City Attorney was taken up. Geo. Brown and L. N. Miller were the candidates. The ballot resulted, Brown, 4; Miller, 2.

The City Marshal was selected to perform the duties of Pound-keeper.

The council then proceeded to consider the question of Police Judges, and here a snag was encountered. Mayor Barry and some members of the council had so construed the law that they considered the office of Police Judge vacant, and were proceeding to elect one to fill the vacancy. At this point Hon. D. R. Murray asked permission to make a few remarks. This being granted he proceeded to construe the law as he understood it, and asked the council to take no rash steps that might involve the city into long and expensive litigation.

Section 12 of the new charter for fifth class cities, of which Cloverport is one, says: "The members of the City Council and Police Judge shall be elected by the qualified voters of said city at a general municipal election to be held therein on the Tuesday after the first Monday in November in 1893 and thereafter at successive regular elections, and at the general election next preceding the expiration of their terms; the Mayor and Police Judge to hold office four years and the members of the City Council two years from the first Monday in January following the election: Provided—That the terms of Police Judges elected at the November election, 1893, shall begin on the first day of September, 1894, and continue until the November election, 1897, and until their successors are elected and qualified."

Section 14 of the new charter says: "Any vacancies occurring in any of the offices provided for in this chapter shall be filled by appointments of the City Council."

Under the old city charter of Cloverport, the Mayor performed the duties of both Mayor and Police Judge, and filed his bond with the County Court as a Justice of the Peace. Ex-Mayor Lightfoot was elected in May 1892 for two years, and the new council, going upon the two passages of law just quoted, were about to declare the office of Police Judge vacant.

Mr. Murray explained that the provision in Section 12 was placed there on purpose to fit just such cases as this, and sighted the council to a passage in the new constitution where it said that the old Police Judges should not only fill out their unexpired terms, but they were required to perform the duties of the office until their successors were qualified. In regard to section 14, he said that it had reference to such offices as City Marshal, City Attorney, Pound-keeper, etc., as were provided for in this

## All Is Well That Ends Well

AND TO MAKE IT STILL

## WELLER

Purchase before or soon after January 1, 1894, an Overcoat at 60 CENTS on the dollar, or a Suit of Dress or Business Clothes at 62 1/2 CENTS on the dollar, or a Boy's or Children's Suit at 50 CENTS on the dollar. Don't you think our suggestion a good one?

IT'S TRUE THAT'S A PITY, IT'S A PITY THAT'S TRUE.

Our stock is entirely too large. The PANIC'S as bad as ever, and OUR prices still more PANIC-Y. We thank you for past favors, ask and look for a repetition, and wish you and yours a "Happy New Year" and Many, Many returns.

## JULIUS WINTER & CO.,

Let N. B.—Be sure you come to the right store.

chapter, and that the office of Police Judge was not provided for in this chapter, but in the constitution of the state, and that if a vacancy should occur the council would have no right to fill it, but the officer would have to be commissioned by the Governor. His remarks left the impression that the office was not vacant, and that ex-Mayor Lightfoot could not only fill out his unexpired term as Police Judge, but that he would be compelled to serve 'til September, 1894, if he did not die or resign the place before that time.

The Judge cited Mr. L. G. Gregory, and he has written on to Frankfort and obtained a commission from the Governor to fill the office from January 1st to September 1st, when the term begins for which he was elected. Through what representations this commission was obtained is not known, but Governor Brown granted it all the same.

Ex-Mayor Lightfoot made a few remarks, stating his position. He said that he didn't want a single day of Mr. Gregory's term, but that he is only contending for his own; and that, if it is law that he should act as judge 'til his term expires, he wishes to do so. He surely thinks that it is juster that he should be allowed to complete his contract with the city.

After a little more discussion, the council agreed to lay the matter before the Attorney General before they administered the oath of office to Mr. Gregory. This was done by Mr. Gregory's request.

Mayor Barry then appointed the following committee: Finance Committee—Chas. H. Skillman, chairman, R. B. Pierce, S. P. Conrad; Ordinance Committee—R. B. Pierce, chairman, C. B. Skillman, J. Lillard; Street Committee—L. Oels, chairman, F. P. Payne, J. Lillard; Calabash and Police Committee—S. P. Conrad, chairman, A. L. Oels, F. P. Payne.

Council then adjourned to meet again Friday night, the 30th inst., when the Police Judge question will either be settled or got into a worse muddle than it is now.

## Gone Over to the Enemy.

The report was current in this city yesterday that C. Wickliff Moorman would be a candidate for sheriff on the Republican ticket. Mr. Moorman was out of the city and could not be seen, but the news comes pretty straight from leading Republicans interviewed on the subject that the report was true and that he would be a candidate.

## Live Stock Points.

The best trotting time in 1893 was again made by Nancy Hank, but she has not equalled her famous 204. Her best this season was 204 1/2.

A man who had been in the habit of raising his legs over his head at a general "well gathered from hotel" was surprised to find at length that he began to lose his legs rapidly by disease and death. Do you wonder what the reason was?

"Just think of some farmer that feeds his mares well on oats from the time they were stunted until foaling time, and then compare their colts with the colts of some shiftless farmer that feeds corn. Though the colts are from dams that are alike and sired by the same horse, you can see a vast difference in favor of good feeding. You can feed for or against bone and muscle and a salable animal."

Did you ever try to doctor a hog?

In England medicine is not considered at its best till the sleep is from 9 to 10 years old. That is rather slow for us. We want the same results in 18 months, and we are going to have them.

STATE OF KENTUCKY: I, A. B. Skillman, Cashier of Breckinridge Bank, do hereby certify that the within is a true and correct copy of the statement of the condition of said bank, as of the 31st day of December, 1893, in the best of his knowledge and belief, and further certifies that the above report is made in compliance with the provisions of the act of the General Assembly designating the 31st day of December, 1893, as the day on which such report shall be made.

**ABSOLUTELY PURE**

**BRECKENRIDGE NEWS.**  
WEDNESDAY, JANUARY 3, 1904.

**CLIFTON MILLS.**

We need another "big meet."  
J. E. Keys and wife visited J. M. Fitch and wife last week.  
J. W. Parr and wife visited relatives at Custer during the holidays.  
Edgar L. Wheeler, of Louisville, visited relatives here during the holidays.  
Misses Pearl Beachamp and Gertrude Cashman were visiting Mrs. E. J. Beachamp last week.

H. C. Hallock was called to Owensboro last week before the board of examiners on pension affairs.

W. J. Atkinson, J. M. Fitch and A. J. Dyer attended court last week as jurors in the Harned case.

Sirens, we admire you and admire your flights, but methinks you soar too high your wings get a little tired.

The next grand jury will certainly have a rich harvest and it will be their own fault if many taxes are not gathered.

The young folks of this vicinity assembled at Mr. and Mrs. J. W. Carr's last Tuesday night and had quite a nice party.

Frank Sparks, of Morehead, was over last week. We are always glad to see Frank coming. We know we will have some fun, Frank is a jolly old lachlor.

Our estimable fellow citizen, W. J. Atkinson is talked of as an associate with Henry Garner, on the assessor's ticket. We will venture to say Henry can't find a better Democrat.

There are to many dogs and guns in this county and not enough children at school. Alex Montgomery says the reason he is in Congress is that he thought more of books than dogs and guns.

Mrs. Mary Shellman, of near Union Star, who has been spending the winter with Mrs. J. M. Fitch, has returned home. Mrs. Shellman added many friends to her list during her stay here.

L. R. Atkinson, of Stephensport, was in our midst last week. He tells us that he, instead of his brother, Joseph, will be deputy on the Garner ticket for assessor. We term L. R. a good Democrat.

The Republicans of this "neck o' woods" will go to Harlanburg for the second round in a solid phalanx for "Sweet Owen" as their standard bearer for County Clerk. The Democrats are for "Uncle Gil."

It is laughable to be at the county seat on court day and see disappointment depicted in the countenance of the professional juror, who has gone and taken his dinner and lunch and in his saddle pockets, when the sheriff passes him and catches an amateur on the jury.

It's disgusting to hear a man that didn't have the "sue" in his craw, to enter either side of the case, to be a witness, croaking because some poor man who shouldered his gun for the Union has been given a little insignificant pension of ten or twelve dollars.

T. R. Henderson's friends are urging him to enter the race for County Clerk. Mr. Henderson possesses the qualities of a first-class campaigner. Should he enter the race, we think he will stand a good chance of securing the prize. Mr. Henderson is a staunch Democrat.

Rumor says Tim Jordan, the biggest Democrat in the county will be a candidate for jailer, subject to the action of the Democratic party. Tim only weighs 325 pounds and if successful the jail will have to be enlarged. If he runs as well other places as he will run some body will hear something durn.

School trustees are warned to put themselves on the new school laws in regard to buying charts and maps. Beware of slick-tongued citizens and stand a good ground on top bugs practicing imposition on the people. They will tell you that the law compels you to buy them at once and ask you an extravagant price for them. It's all stuff, trustees have from now until September 1894 to buy them and can buy them much cheaper if they will organize.

The people rejoice with Mr. J. L. Rush when he received a notification a few days ago from his attorney at Washington, City, that he had been allowed a pension of \$12 per month under the new law dating back to June 11, 1892. Mr. Rush is a worthy pensioner and it will be remembered that he had his leg crushed near Stephensport on the 12th of May, 1891 by a jump of coal falling from a freight train.

The best joke of the season is on Willie Parr and wife. They, as all good people, take the News and they read in the Clifton Mills the spelling match on Thursday night, and so they thought they would go. When they went in the house and found seats, around came "Jeems" Tucker asking them if they had tickets. Willie says "What time will I thought it was a spelling match." Tucker says "Oh no, it is a show, the spelling match was last Thursday night."

Needless to say that Willie secured tickets and took in the show and declares it second only to the World's Fair. The explanation of the joke is our items were a week late.

Married at the residence of the bride's father on December 23rd, 1903, Mr. S. K. Clair officiating. Rev. G. W. St. Clair officiating. There were about one

hundred friends and relatives present. After the ceremony, they followed by a few friends and relatives, repaired to the groom's parents where they found an elegant table with all that an epicure could wish. After dining they retired to the parlor and were joined by many friends and passed the evening off in the way of a musical entertainment. May they live to enjoy a ripe old age and look back over the past and say with a clear conscience that marriage is not a failure.

As a home remedy for throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Druggists now have Ayer's Almanac.

**A Sile Substitute.**

A German farmer's method of feeding turkeys or mangos is suggested to our own farmers who are not provided with silos, by The Rural New Yorker. He fed his turkeys a lot with three corn partitions, in which the corn feed was soaked several days previous to feeding. The lot is built out of pine stanchions and 1 1/2 inch boards, with the top front open, the whole divided into three equal compartments, each to hold an even day's feed for all animals, space being calculated on the basis of two cubic feet for each cow.

A three inch layer of chopped hay and straw is now spread evenly on the floor of the first compartment; then follows a thin layer of sliced mangos, which have previously been mixed with the daily allowance of silage and bran; then another layer of chopped hay and straw, treading down firm as it grows up and setting in the front boards as needed. When full, a board covering is put on. On the second day the next compartment is similarly filled, and on the third day the last one. On the third day he begins to feed from the first compartment. This has now become thoroughly soaked and has entered into a sweet fermentation, giving an agreeable odor to the whole mixture, and the avoidance of which it is consumed provided that it is relished.

**Items of Interest From All Over The State.**

My wife had been engaged with rheumatism for several weeks and confined to her bed. In less than one week after using the Electropole she was able to get up and go to church.

H. H. Hays, Owensboro, Ky. Since using the Electropole I feel at least 20 years younger.

G. W. Flint, Skyline, Ky. I believe the Electropole to be the greatest medical discovery of the age. Miss Katie McNary, Greenville, Ky.

The Electropole has given perfect satisfaction in both cases, one neuralgia the other rheumatism, and the rest of the numerous ailments. Richard J. Whelan, Bardonia, Ky.

Thanks to the Electropole for what it has done for me and my family. It has cured indigestion and liver trouble, besides giving almost immediate relief to toothache. W. E. Willett, Carlisle, Ky.

I have used the Electropole in my family from my mother-in-law 72 years old down to the baby one year old with the happiest results in all cases. Several of my neighbors have seen and all well pleased. Everybody should have one. F. M. Callahan, Verona, Ky.

To me the work of the Electropole is a mystery—almost a miracle. Rev. J. I. Rodgers, Danville, Ky.

The Electropole has cured me of asthma and kidney trouble. L. Yocum, Taylorsville, Ky.

I regard the Electropole as the work of the Nineteenth century. My wife, though not yet well, is better than she has been for fifteen years, having been a constant sufferer and confined to her bed with little prospects of ever being out, but is now up and about. H. B. Woodward, Harlanville, Ky.

The Electropole has done me a great deal of good. Isaac Duncan, Lewisburg, Ky.

I think it is the greatest curative agent in existence. Miss Beulah Dale, Russellville, Ky.

Many have pleased with my experience with the Electropole and believe it in advance of any known remedy for the restoration of the normal condition of the system, and it has been proven so practically as well as theoretically. Dr. J. W. Clark, Augusta, Ky.

My house was a regular hospital until the Electropole was placed in it. A. G. Seaman, 1222 Second street, Louisville, Ky.

The Electropole restores wasted vitality and the claims made are not exaggerated. Mrs. O. G. Bennett, Louisville, Ky. Address: DuBois, E. WEBB, Norton Block, corner Fourth and Jefferson streets, Louisville, Ky.

"C. C. C. Certain Cures" removes corns, warts, bunions, hemorrhoids, etc. It is a sure cure. See that C. C. C. is blown in every bottle. Take no other.

**MANITOBA GRIZZLIES.**

MONSTROUS BEARS IN THE FORESTS BACK IN THE MOUNTAINS.

Some of Them Tamer Sit Feet Above a Man, and It Takes Nerve to Stand in That Tremendous Presence—A Hunter Saved His Life by Doing a Crazy Act.

Fifteen years ago, said George W. Rao, a Manitoba pioneer, the grizzly bear was so plentiful among the Manitoba Rockies that the Hudson Bay company annually secured many hundreds of their skins from the army of hunters and trappers that had its range in that wild region, but today this fierce and ponderous beast—nowhere so fierce or so enormous proportions as among the Manitoba fastnesses—is quite a rarity in its old haunts, and I don't think it can now be come upon without a difficult and tedious journey of at least 100 miles into the interior wilderness of the province.

The grizzly has met with almost as hard a fate as the buffalo, although, from the nature and isolation of its present retreats and the difficulties attendant on hunting and trapping for it, the grizzly bear, like the Manitoba moose, will never become extinct in that country. I believe that the moose, although the flesh of 2000 of them is required to supply the demand in the territory alone with fresh meat every year, is as plentiful today in its wild retreats as it has been at any time since the great invasions of far and pit hunter were begun in the territory.

To reason why the grizzly bear of the Manitoba Rockies should grow so much larger than the grizzly of the same mountains in the States, but a long and varied experience in hunting these animals in their respective localities has proved to me that such is the fact. No grizzly bear that I ever captured or killed ever knew to be captured south of Manitoba measured more than 75 feet from muzzle to tail, or weighed more than 1,200 pounds. But it was no uncommon thing in the palmy days of grizzly bears in Manitoba for the hunter or trapper to be confronted by one of these monsters 9 feet in length and with a bulk of 1,500 pounds or more. I have seen Manitoba grizzlies that when they threw themselves on their haunches and rose erect, towered five feet and four feet above me, and I want to tell you that it takes a man with a large quantity and the best quality of nerve to stand in that tremendous presence and prepared to do battle coolly and with a level head.

Grizzlies bear like all the rest of the bear family, have the curious habit of rising against a tree, and reaching up as far as they can with the fore paws, making marks in the bark by digging it with their claws. I have more than once come across these measuring marks of a grizzly, as the marks on the bark are called, 12 feet above the ground. Imagine coming suddenly upon a bear like that in a very isolated spot, and you can understand how the hunter or trapper must have been startled. The sight of his great jaws, open and red, and his eyes shining in fury, and the tremendous mouse head that towers so far above you, is something only to be appreciated when one is in the presence of one.

When there were buffaloes on the plain, Manitoba grizzlies were keen and persistent hunters of them. When a grizzly and a buffalo met, there was sure to be a fearful contest, although it was usually the buffalo that was the victor. The grizzly bear, when confronted by a bear, would invariably charge first, and the buffalo would then charge back, and the two would fight until one was killed. This was just what the bear desired, and he awaited, erect on his haunches, the onset of the buffalo. As the latter rushed forward with lowered head and was almost upon the bear, the hunter grizzly would spring quickly to one side, and with a blow as quick as lightning with one of his great forepaws would strike the buffalo on the forehead and kill every one of them. As the latter rushed forward with lowered head and was almost upon the bear, the hunter grizzly would spring quickly to one side, and with a blow as quick as lightning with one of his great forepaws would strike the buffalo on the forehead and kill every one of them.

It is sometimes feared, though, that a bull younger and more agile than his companion succeeded in driving the fat-bellied of the grizzly's terrible paw long enough to give him a deadly thrust in the back, and that he was thus able to draw from the monster's many antlers, something only to be appreciated when one is in the presence of one.

This was just what the bear desired, and he awaited, erect on his haunches, the onset of the buffalo.

As the latter rushed forward with lowered head and was almost upon the bear, the hunter grizzly would spring quickly to one side, and with a blow as quick as lightning with one of his great forepaws would strike the buffalo on the forehead and kill every one of them. As the latter rushed forward with lowered head and was almost upon the bear, the hunter grizzly would spring quickly to one side, and with a blow as quick as lightning with one of his great forepaws would strike the buffalo on the forehead and kill every one of them.

It is sometimes feared, though, that a bull younger and more agile than his companion succeeded in driving the fat-bellied of the grizzly's terrible paw long enough to give him a deadly thrust in the back, and that he was thus able to draw from the monster's many antlers, something only to be appreciated when one is in the presence of one.

When there were buffaloes on the plain, Manitoba grizzlies were keen and persistent hunters of them. When a grizzly and a buffalo met, there was sure to be a fearful contest, although it was usually the buffalo that was the victor. The grizzly bear, when confronted by a bear, would invariably charge first, and the buffalo would then charge back, and the two would fight until one was killed. This was just what the bear desired, and he awaited, erect on his haunches, the onset of the buffalo.

ASSORTED FLAVORS IN EACH CARTON.

ging, so that prices for them are also very low. Still many discouraged farmers continue forcing their sheep upon the market, anxious to get rid of them and eager to obtain a little ready cash.

It would be well if such farmers would stop and reason a little before going any further into bankruptcy, for it can be nothing else. The greater number of sheep that have been killed, which were formerly kept simply for the wool they produced, will very materially reduce the wool producing capacity of the country for the next year. When manufacturers start up again, there will be a demand for wool, but the lessened number of sheep in the country will not be able to supply the demand.

Look at it as we will, we cannot help concluding that there is a good outlook now for both wool and mutton. It may come until after the business is over, but it is true that these conditions will be partly the result of hasty actions of the wool growers. Those who have not sold out will profit at the expense of the foolish. But it is in all business common to see houses get frightened in times of pressure, and they try to close out early before time becomes harder.

The cross of Dorset rams upon grade Merino ewes has been found to be a most valuable one for the production of mutton lambs as well as full grown ewes. The blood of the two breeds blends well.

The Dorset lamb, with horns or without, is the best of the breed, and is the most in demand for both water and spring raising. The rearers of market calves and making the rounds of stores, may find it well to lay hold of this point.

It will be worth while next summer, when sweet clover is at its richest, most fragrant stage, for poultry raisers to make the experiment of cutting and curing it for the fattening birds in winter. It will be worth the trouble and cost, which is chopped and soaked sometimes for poultry feed. The exquisite fragrance, more so, as the clover is dried, may lend flavor to the meat.

It is mentioned that the "curdling principle" used by the cheese-maker is not so much a chemical process as it is a natural one, and is effected by the use of rennet, which is a natural product of the stomach of a young calf.

**THE NEW YORK WEEKLY HERALD FOR 1894.**  
WILL BE WITHOUT QUESTION AMERICA'S LEADING FAMILY PAPER.  
The reputation that the Weekly Herald has enjoyed for many years of being the best home newspaper in the land will be materially added to during the year of 1894. Its pages or expense will be spared to make it in every department the most reliable, interesting and useful of all weekly newspaper publications.  
It will be improved in many ways.  
A number of new features and departments will be added. The latest developments in all fields of contemporary human interest will be ably discussed from week to week by accomplished writers.  
The News of the World  
Will be given in a concise but complete form. Every important or interesting event, either at home or abroad, will be fully described in the columns of the Weekly Herald.  
The household and children's pages will be both instructive and entertaining. They will abound in hints and recipes which women so much value.  
A brilliant array of news and short stories by the best writers in America and England has been secured, so that fiction will be one of the most attractive features in the Weekly Herald during 1894.  
Persons and stock markets cannot afford to be without the Weekly Herald during the coming year. It will contain a regular department each week devoted exclusively to early and timely information and giving many valuable suggestions and new ideas.  
The women and children of the land will find in the Weekly Herald a welcome visitor. They will be interested in the household and children's pages, which are so much valued.
